

Toastmasters International District 89

District 89 Alignment Proposal for 2022-23

Introduction

All Districts have geographic boundaries. The geographic boundaries of a District are established at the time of its formation. Should the District want to change its boundaries, any proposed changes must be approved by the District Councils of all Districts involved and submitted to World Headquarters for the consideration of the Board of Directors. Once each year, Districts must review and amend, if necessary, the alignment of the clubs, Areas, and Divisions within their boundaries.

(According to District Leader Handbook P.20 District Alignment)

Alignment Considerations

Changes are minimized to keep most clubs within the current division as in year 2021-2022. Some adjustments are proposed to achieve the following objectives:

1. Maximize convenience and effectiveness for club visits based on geographical location to maximize synergy (for Division RW);
2. Balance the number of clubs and workload across Divisions and offer better support to clubs that need more support and guidance;
3. Maximize number of areas and divisions to achieve distinguished or above;
4. Speech contest is a valuable learning opportunity for our members. Maximize the number of representatives from clubs to join area and division contest;
5. Better resources sharing for clubs within a division;
6. Increase leadership opportunities for members.
